## Environmental Policy

Croker Construction (WA) Pty Ltd is a civil contracting company managing several construction sites around the Perth Metropolitan Region and its surrounding areas. Croker Construction specialises in residential and commercial sub divisional construction. The employees of the company represent a wide cross section of skills and experience required to construct quality roads and earthworks. Our company provides contracting services to various organisations, shires, councils, developers and contractors.

Our Environmental Policy ensures we perform all tasks with no harm or damage to the environment. Works that require interfering with a natural environment are to be conducted in a manner that is responsible and complies with the clients and legislative requirements.

The objectives of our Environmental policy are:

- To achieve an environmental incident free workplace.
- To ensure the surrounding and affected environment is considered in all planning and work activities.
- To identify and control all potential environmental hazards in the workplace through hazard identification and risk analysis.
- To ensure all potential environmental incidents are controlled and prevented.
- Ensure all works undertaken comply with the clients, government agencies and regulatory requirements.
- Ensure our internal environmental management system is implemented & monitored in compliance with ISO 14001.

The success of our environmental management system is dependent on:

1. Pro-active planning of all work activities with due consideration given to implementing environmental management controls that are suitable to each given situation.
2. Understanding the total work process and associated environmental risks
3. Ensuring the work team is totally committed to achieving our objectives.
4. Ensuring that open and honest communication exists between management and all employees.

This policy will be reviewed annually by the General Manager
